Part 5. A new international standard

In this section

BS 18477 and the new ISO 22458

BS 18477 and the new ISO 22458

Guidance to help organisations identify consumer vulnerability and meet the needs of affected customers

BS 18477: Inclusive service provision. Requirements for identifying and responding to consumer vulnerability helped organisations to identify and meet the needs of vulnerable customers.

In 2022, a new international standard, BS ISO 22458: *Consumer vulnerability. Requirements and guidelines for the design and delivery of inclusive service* was published, developed from this ground-breaking British standard. In line with the standard, the British Standards Institution has introduced the BSI Kitemark for inclusive service to help organisations demonstrate their commitment to vulnerable consumers.
